

Muhammad Muaz Ahmed

Full-Stack Developer · Android Developer · AI Engineer · CEH Certified

+92 313 876 2965 | muhammadmuazahmed@gmail.com | muhammadmuazahmed.me | github.com/muhammadmuazahmed | Islamabad

PROFESSIONAL SUMMARY

Fresh BS Software Engineering graduate from IIU Islamabad (CGPA: 3.34/4.0, Jun 2026) with 15+ months of professional freelance experience. Full-stack developer (MERN/Next.js), Android developer (Kotlin/React Native), AI engineer (Python/FastAPI/RAG pipelines), and EC-Council Certified Ethical Hacker (CEH). Currently solo-building EasyRide — a ride-hailing platform for Chakwal. Delivered a production AI medical coding system as my Final Year Project. Ready to join a team and contribute from day one.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI, Shadcn/UI

Backend: Node.js, Express.js, FastAPI (Python), REST APIs, JWT, bcrypt, Nodemailer, Resend

Mobile: React Native (iOS & Android), Android (Kotlin), Android Studio

AI & ML: Python/ML, RAG Pipelines, LLM API integration, Vector Databases, Pydantic, pytest

Databases: MongoDB, MySQL, PostgreSQL

Cybersecurity: Burp Suite, Nmap, Metasploit, Wireshark, Kali Linux, OWASP Top 10, PTES, MITRE ATT&CK

Languages: TypeScript, JavaScript, Python, Java, Kotlin, C++, SQL, Bash

Tools: Git, GitHub, Figma, Postman, VS Code, Android Studio, Canva, MS Office

Concepts: OOP, DSA, Agile/Scrum, Responsive Design, Secure Coding, CI/CD awareness

WORK EXPERIENCE

Full-Stack Developer · Freelance — Remote

Jun 2024 – Present

- Designed, built, tested, and deployed 5+ production web applications using Next.js, React.js, TypeScript, MongoDB, and REST APIs for real clients — managing complete project lifecycles independently
- Integrated third-party APIs including Twilio (OTP/SMS), Google Maps, Resend, and payment-adjacent services across multiple production projects
- Maintained clean Git-based codebases, collaborated with clients asynchronously, and delivered on agreed timelines across international projects

Cybersecurity Intern · National Incubation Center (NICAT), Islamabad

Jun – Aug 2025

- Performed end-to-end VAPT across web, network, API, and wireless environments using Nmap, BurpSuite, Metasploit, and Wireshark following PTES methodology
- Documented findings with CVSS risk ratings, reproducible POC steps, and prioritised remediation recommendations for each engagement

Mobile App Developer Intern · LE-OBAN, Islamabad

Jun 2025 – Aug 2026

- Independently built Android Network & Port Scanner in Kotlin — multi-threaded port scanning, real-time RecyclerView UI, tested on physical devices
- Contributed to app development in Agile team — code reviews, sprint delivery, feature development

Web Developer · ETL Online — Remote

Jul 2025

- Delivered complete client web project — frontend, API integration, cross-browser testing, and deployment within deadline

KEY PROJECTS

EasyRide — Ride-Hailing Platform *Next.js · React Native · Socket.io · Twilio · Google Maps · MongoDB [In Development]*

- Solo-building an InDrive-style ride-hailing platform for Chakwal — real-time GPS tracking, Twilio OTP/SMS, Google Maps routing, fare negotiation, driver & rider apps for iOS and Android

Virtual Medical Coder *Python · FastAPI · RAG Pipeline · LLM · Vector DB · Pydantic · pytest [FYP]*

- Production AI system: clinical text → ICD/CPT billing codes via RAG pipeline, LLM integration with guardrails, Pydantic data contracts, YAML rule engine, pytest test coverage — independently built end-to-end

Hospital Management System *Next.js · TypeScript · Tailwind CSS · REST APIs*

- Multi-module healthcare platform for patient records, appointment scheduling, and medical data management — dynamic routing, modular architecture, fully responsive

True Feedback Platform *Next.js · MongoDB · JWT · bcrypt · React Query · Resend*

- Full-stack anonymous feedback platform — shareable link generation, JWT auth, bcrypt encryption, email verification, React Query data fetching

Android Network & Port Scanner *Kotlin · Android Studio · Multi-threading · Socket Programming*

- Production Android security research tool — live WiFi device enumeration and multi-threaded port scanning; documented on GitHub with architecture overview and ethical usage guidelines

EDUCATION

Bachelor of Science in Software Engineering (BSSE)

Jun 2026

International Islamic University, Islamabad (IIU) | CGPA: 3.34 / 4.0 | HEC Recognized

CERTIFICATIONS

EC-Council CEH (Jul 2025) | NAVTTC Cybersecurity CEH/CHFI (Jul 2025) | ADBI Cybersecurity (Aug 2025) | Google UX Design x2 (2023–24)
| OSCP+ (Pursuing)

ACHIEVEMENTS & LANGUAGES

Runner-up — Hackxila, UET Taxila 4th Place — Codebuzz Competition, IIU Top organic Google ranking (muhammadmuazahmed.me)
Urdu & Punjabi (Native) | English (Professional)
